EXPORTING PROCEDURES

This course will provide an in-depth understanding of export regulations and procedures combined with a study of the appropriate documentation that will give you a valuable advantage in making your international trade business a success. Learn to comply with regulations to avoid violations, fines, fees, and delayed shipments.

IMPORTING PROCEDURES 101

Learn the importance of accurate paperwork and timely reporting. Designed to help commercial importers become more aware of their regulatory obligations, learn your broker's responsibilities, and develop strategies for improving trade compliance within their organization. Your customs broker's errors could result in penalties for YOU, the importer.

IMPORTING 201 - ADVANCED IMPORTING CLASS

This course builds upon techniques presented in our U.S. Importing course and explains how to implement and strengthen your import controls. Course also describes what you should do to prepare for the eventuality of a CBP audit.

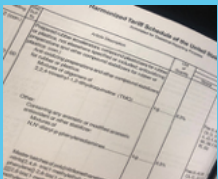

INTERNATIONAL LETTERS OF CREDIT

As your international business grows, so will your financial risks and uncertainties. Imagine not getting paid for your international sales! Learn to fully comply with Letters of Credit requirements. Learn how to ensure that you receive payment for your shipments, how to get paid faster, and how to lower bank fees.

INTERNATIONAL LOGISTICS

Learn to control your international shipments by directly coordinating your documents with transportation rules and procedures. Review the air and ocean transportation & documentation process. A comprehensive review of the roles of the forwarder and the customs broker. Learn selection process of a forwarder, customs broker, and carrier.

TARIFF CLASSIFICATION

Classification for importing, exporting, FTA determination & clarification on Section 301 and Section 232. The classification & valuation of goods are major decisions! Critical information not only for duty purposes but also to determine whether goods are subject to quotas, restraints, embargoes, or other restrictions. Shipments with incorrect classifications may not reach their destination and/or you may be subjected to penalties.

USMCA THE NEW NAFTA

Free Trade Agreement USMCA can help you save on tariffs and fees. Our experts will guide you through the process of properly qualifying goods, navigating procedures, and completing documentation under USMCA and other free trade agreements. Learn about changes so that you may stay ahead of the curve and ensure compliance.

Country of Origin*

Country of Origin is a key part of Free Trade Agreements and is crucial in these days of anti-dumping and section 201, 232, and 301 duties. This course will help you understand substantial transformation, the rules of origin for determining the Country of Origin, and how to document your work.

EAR

Export Administration Regulations Course. This export controls training covers basic concepts one needs to understand to execute essential global business operations in a compliant manner. The course has been updated to include new developments so that you will also learn about revisions to license exceptions, end use/end user controls on China, about new controls on foundational technologies and more.

Export to Mexico

Understanding cultural differences can go a long way! Course presents an overview of the processes involved in cross-border exportation between the United States and Mexico. This course is designed to help organizations understand cultural differences, the legal requirements of doing business in Mexico and provide an opportunity to focus on establishing/updating operations and internal procedures which will enable companies to practice a level of reasonable care.

ITAR

A fundamental overview of the U.S. International Traffic in Arms (ITAR), providing insight and understand of the key principals and essentials of proper compliance. How does ITAR impact international business, avoid costly fines and penalties, does my product fall under ITAR, and other questions are answered with this training. Learn if your products have moved from ITAR to EAR!

CTPAT

This course is for developing, implementing and/or maintaining CTPAT Certification & Re-certification. Class will explore and discuss Minimum Security Requirements. An authoritative and comprehensive course for building a dynamic and cost effective CTPAT program. You will learn about hard and soft benefits to securing your supply chain.

Export to Canada

Streamline your shipments to Canada. Learn about the Canadian customs requirements, review procedures, learn the documentation requirements, non-resident importations and the process of clearing goods at Canadian Customs. This course has been designed to provide a comprehensive guide for the requirements for shipping products to Canada and to facilitate exporting to Canada.

Incoterms Rules*

International Commercial Terms were created to facilitate international trade. But without a good understanding of Incoterms, the terms you are using may be putting your company at risk and adding unnecessary costs and confusion. Take this class to understand when the transfer of risk moves from the Seller to the Buyer and who is responsible for insurance. Understanding Incoterms is vital to importers, exporters, bankers, and service providers.
